conditions, and there are other variations in the same lot of ammunition. To make it as uniform as possible then, the powder is piled in a great known as a "cycle." Several cycles are required to assure the proper

The charges are then weighed down to fractions of an ounce, sewed in be sure that they will go in smoothly when required. There have been intice has been thrown out beause it the powder bags did not fit.

The target itself is a small pyramidal one, to be towed 400 yards behind the navy tug Navajo, which has been loaned by Admiral Cowles for in a 50-yard radius of the target is considered a hit, the fall of the projectile being taken by the splash.

Practice Now. For some time past the tug James Makee has been towing targets across the zones of mortar fire to give the men in the station practice at trackhas been finished, and the gunners are now worked up to a state of keen

Monday the firing will be in the innermost zone, from 3,500 yards to 4,500 range. Wednesday the target will be towed at from 7,500 to 8,500 yards. On each day's practice there will be four trial shots, and ten record shots fired. The record shots are fired at one-minute intervals, from alternate pits, every mortar being fired once except the No. 1 mortar of each pit, which will be fired twice. The first shot is the only one on which time can be saved, it being allowable to fire as soon as possible after the umpire gives the command to commence firing, but after the first shot the others must be at regular intervals of

Lieutenant Colonel Campbell, adjutant general, is to be the umpire, and as such is responsible for the safety of the firing. Major Timberlake, commanding the coast artillery district, has his command in a high state of efficiency, and good results are ex-

When two good newspapers like the Star and Bulletin combine, something exceptionally good is expected. And these expectations have been fulfilled. By leaps and bounds the Star-Bulletin is pressing to the front as the leading newspaper in Honolulu and all Hawaii,-Maul News.

### CORNER IN SILVER MADE IN BOMBAY

BOMBAY, India, June 25.—Some ineresting information has been furnished to the Times of India by Chunilal Surya, the leading spirit in the Bombay silver group, with regard to the corner in silver made by the lat-

The group, it appears, was formed a year and a half ago, some 30 persons being concerned in it, and investments were made to the extent of 30,000,000 reis, 20,000,000 reis more being afterwards available. Twenty million reis' of stock were disposed of gradually, and the remainder was sold quite recently, the profit on the whole transaction, after paying interest, being no less than 2,500,000 reis.

The stock disposed of is now distributed among about 100 stockholders, and according to Chunilal Surya, Last year there was some trouble all the loans in Bombay on silver have with the target, which became en now been paid off, the effect being tangled in the towing apparatus, and that the shares of the Indian Specie
